

## **UNITED STATES AIR FORCE**

### **LICENSE APPLICATION**

(Please Print or Type)

Thank you for your interest in United States Air Force (USAF) trademark licensing. This form allows us to get to know your company better, so please answer the questions as completely as possible.

#### ***STEP ONE: APPLYING FOR A LICENSE***

To begin the licensing process, you must complete the following steps:

\_ Complete the application in full, providing USAF with a comprehensive look at your company and its involvement and experience within the licensing industry.

\_ Provide a representative sample of each product that you plan to produce bearing any USAF mark. Catalogs and/or e-mail photos of products are acceptable during the pre-production phase. The samples must illustrate your planned method of enhancement. Samples bearing marks other than those of the USAF may be submitted; however, the USAF reserves the right to request a production-run sample of the licensed product prior to executing the Standard License Agreement.

\_ Once you have completed the application, send it with the other required elements to the United States Air Force Public Affairs, Integrated Marketing Division at the address at the end of this application, and keep a copy of the application packet for your records. The Chief of Air Force Branding and Trademark will review each application based on the information provided and if your application is approved, you will receive a licensing packet. If your application is not approved, you will be notified in writing.

**\*\*Applications submitted without all of the above-mentioned items will not be processed\*\***

#### ***STEP TWO: THE LICENSING PROCESS***

Once your application has been approved for license, you will receive a licensing packet. You must complete the following steps in their entirety and receive a fully executed agreement before you may begin production:

\_ Sign and return the Standard License Agreement

\_ Submit a certificate of product liability insurance that names the USAF as additional insureds.

\_ Submit the company's identification tag or label that will appear on all products. USAF requires all licensees to properly identify themselves on each product with either a neck label, hang tag or byline.

\_ Submit a sample of the USAF Licensed Product label. The USAF requires that all licensees identify their products as approved to be licensed by displaying the USAF Hang Tag prominently on the product. Hang Tags may not be suitable for all products. If you feel your product would not be able to display a hang tag, please provide a description of where/how you plan to place the information below. We recommend Hang Tags be on 80# to 100# Gloss Cover paper stock and are required include the following information:

1. The official USAF Symbol and the words U.S. Air Force
2. Statement that the product is an officially licensed product Department of the Air Force
3. Recruiting website and contact information:  
([www.airforce.com/1-800-423-USAf](http://www.airforce.com/1-800-423-USAf))

Example of approved layouts: 1'x1'

\_ All artwork must be approved by the Air Force Public Affairs, Integrated Marketing Division prior to production.

**\*\*Authorization to produce products bearing USAF marks will not be granted until the company has completed the licensing process in its entirety and received an executed standard license agreement.**

### STEP THREE: LICENSE MAINTENANCE

Once the licensing process has been completed, the Integrated Marketing Division will forward an executed copy of the Standard License Agreement to your company along with a unique user name and password that will help you gain access to production-ready artwork located on the Air Force Link website. To keep your license in good standing, you must remember to:

\_ Maintain product liability insurance coverage for each license that you hold, and make sure that a copy of your current certificate of insurance is on file with USAF.

\_ Always secure written approval of artwork from the Integrated Marketing Division prior to production.

Once again, **this is not a contract**. You are **not authorized** to use USAF marks until: 1) you receive a fully executed Trademark License Agreement, 2) your products and graphics have been approved, and 3) you have provided our office with evidence of product liability insurance.
